

T11EH REPLACEMENT HANDLE

NOTICE OF DESIGN CHANGE

Ken-Tool announces a design change to the head end of the T11EH replacement handle. Still made of the same high-grade US Hickory, the new SureTight™ design has a more bulbous end where the T11E head fits onto the handle.

- New design gives more secure fit.
- Allows more working length for securing T11E head on handle.
- Allows older T11E heads to seat better, have a better fit.

| Model | EDP No. | Replacement Handle for | Length | Weight |
|-------|---------|------------------------|-------------|-----------------|
| T11EH | 35129 | T11E® (35329) | 30" (76 cm) | 1.2 lbs (.5 kg) |
