WHEREVER TIRES ARE CHANGED™

MorTorq® PRO 5 PIECE SOCKET SET

For use on O.E. fasteners on
Domestic, Import, and European vehicles

MorTorq® PRO 5 piece set includes:
3/8" Drive: M0, M1, M2, M3, M4
PLUS steel storage rail!

- Use the MorTorq® sockets to install and remove unique fasteners that are quickly becoming popular on all make and model vehicles including GM, Chrysler, BMW, Fiat, and other import vehicles
- Applications: Interior trim, seat mount bolts, brake rotors & calipers, bell housings, and body panels
- Hardened shock resistant tool bits with chrome plated alloy steel sockets designed for maximum durability and longevity
- Innovative 4-point design for high demand torquing requirements and increased contact area — decreases potential slippage and rounding out
