MOUNT & DEMOUNT TIRE IRONS

A
SERPENT™ MOUNT TOOL
 PN 35450

Designed to stop against the rim, and then remove itself effortlessly from between the rim and bead. The small end of the tool easily gets under the stretched bead for that last pull.

TAKE THE STRUGGLE OUT OF MOUNTING AND DEMOUNTING TRUCK TIRES

PATENTED

Use this end to demount first bead, opposite end to demount second bead.

Demounts both beads on most larger truck tires without the need for lifting the tire/wheel assembly off the ground, and then dropping it. Made of heat-treated alloy steel for maximum durability and strength.
